All coupons in it have expired.

## Teachers Submit Statement Re Their Refusal to Accept School Board's Proposed Salary Schedule

Editor's Note: Since the rate-  
payers will have to pay the bill The  
Journal believes that all ratepayers  
are vitally interested in the pre-  
sent wage dispute between the  
teachers and school board. As result  
it has been successful by providing  
upon the teachers to submit their  
side of the argument to the rate-  
payers for their enlightenment.

A conciliator, K. A. Pugh, of Ed-  
monton, has failed to settle the dis-  
pute and it has now gone into  
arbitration. Following is the teach-  
ers' statement:

"Arbitration in the salary dis-  
pute between the Coleman School  
Board and the teachers is expected  
soon. This arbitration was brought  
about by the teachers' unanimous  
decision to refuse the school  
board's offer. Herewith is a copy  
of the letter sent to Mr. K. A.  
Pugh, secretary of the Department  
of Trade & Industry, stating the  
teachers' reasons for rejecting the  
Board's offer.  
Mr. K. Pugh,  
Department of Trade and Industry  
Edmonton, Alberta

Dear Sir,

In reply to your request to have  
the teachers of the Coleman Sub-  
local ATA outline the reasons for  
rejecting the schedule of salaries  
offered by the school board we  
herewith submit the following.

A. In General:  
1. The schedule is too low in re-  
spect of minimum and maximum  
salaries.

In the light of present cost of  
living indices salaries received on  
this scale would not provide pur-  
chasing power equivalent to that  
in pre-war years.  
2. During pre-war years salaries  
offered were inconsistent with the  
requirements of the profession.  
Teachers require and many have  
training and qualifications equal to  
those in other professions yet the  
highest possible salary on any  
scale was far out of line with the  
earnings of other professions. The  
present schedule offers an even  
greater discrepancy in this way.

3. During the past war years  
when cost of living was rising the  
teachers were denied the full ben-  
efits of cost of living bonuses re-  
ceived by industrial workers. Now  
that war conditions are alleviated  
some of this should be returned to  
the teachers either in the form of  
higher salaries or as a bonus.

B. In Particular:  
1. The date of effect of the  
schedule should be September 1st,  
1946. This schedule is based almost  
entirely on a schedule offered by  
our Sub-local in April. This in turn  
was based on one which was  
in effect at that time. It was pointed  
out then that this was a minimum  
requirement for 1946-47 and that  
there was no way of knowing then  
whether rising prices and wages  
would necessitate new requests for  
1947-48. To adopt this scale now  
even retroactive to September  
would merely lead to new negotia-  
tions before the end of the present  
school year.

2. The board has recognized the  
importance of past experiences in  
improving a teacher's ability to  
offer better service. The increment  
for this experience however should  
be paid for each year of experience  
prior to the date of his schedule  
now as is now stated prior to ex-  
perience in Coleman.

3. A teacher's service to the com-  
munity depends as much on his  
or her training as they do on ex-  
perience. This fact is only partially  
recognized in this schedule in the  
offer of \$200. per annum for a  
degree.

It requires, however, three years  
training beyond the Normal teach-  
ing certificate to gain a degree.  
Each year of this training is the  
full equivalent of the Normal  
School course and provides a  
teacher with a background which is  
brought to bear on the normal  
work of the school. This added ser-  
vice should be paid for as it is being  
rendered by those who have taken  
this training. The modest request  
for \$15 per credit or \$75 per com-  
plete year is sufficiently low that it  
hardly covers interest on the  
money investment required to get  
this training.

4. The salary spread from min-  
imum to maximum in the high  
school is insufficient. It does not  
give the group the same credit for  
experience as allowed in the other  
division of the school.

5. The clause preventing high  
school teachers from attaining  
their maximum for three years  
effects only two of the staff mem-  
bers. It is therefore a discrimina-  
tion against these teachers.

6. The clause (5) "Principal of  
Coleman school." By the proposal  
a number of teachers on the Ele-  
mentary staff would receive \$1800;  
this would be the same as the  
Principal of Cameron school and  
therefore there is no extra remun-  
eration for the added responsibil-  
ity of the principalship.

7. It should be definitely stated  
that Temporary Teachers would  
receive payment at the same rate  
as permanent teachers, with full  
recognition for past experience.

8. No mention has been made  
about payment of substitute teach-  
ers. The rate as fixed by the board  
at \$6.00 per day is out of keeping  
with present salary trends.

In conclusion, Sir, the Coleman  
Sub-local supports the contention  
that so long as salaries of teachers  
are maintained at a level where it  
is not profitable to invest funds  
and effort to gain better training  
then the educational field will never  
have the personnel needed to im-  
prove our standards. These will re-  
main at the present low level until  
the next War makes the public  
again conscious of the need of  
training the younger generation to  
fit into a "One World" picture. Ap-  
parently, the last War and the need  
to understand the United Nations  
picture has made the public con-  
scious of this now as witness most  
newspapers and periodicals. Until  
something concrete is done in  
terms of increased salaries and  
qualifications in that order this  
fury will remain just talk.

Yours truly,  
HORACE ALLEN,  
Chairman, SALLEN  
Negotiating Committee,  
Coleman Sub-local ATA.

..... V .....  
TAXIMAN FRANK COCCIOLOONE  
GETS NEW CHEVROLET

Taximan Frank Coccioolone took  
delivery of a 1946 Chevrolet sedan  
from Crows Nest Pass Motors  
last Friday and is now using it  
regularly in his taxi service.

The color is battle ship gray and  
the car itself is sleek and shiny.

## THEATRE ADMISSION PRICE RUMOR IS INCORRECT

Some persons, without taking  
time to ascertain the facts, are  
spread a false rumor that theatre  
admission prices are about to be  
boosted.

To spike this rumor Purnell  
Theatres' management states that  
the rumor is entirely false. They  
do not plan to boost prices, and in  
fact had not even contemplated a  
price boost. Manager Don Purnell  
stated to The Journal that he had  
known: nothing of the false rumor  
until patrons started to make en-  
quiries at the box office.

Prevailing admission prices are as  
follows and will continue in effect  
indefinitely: Saturdays, Tuesdays  
and Thursdays, adults 40c, students  
and children 25c.

Mondays, Wednesdays and Fri-  
days, adults 40c, students 25c, chil-  
dren 10c.

The word "student" is defined as  
including all high school students  
and those persons over 14 years.  
Public school youngsters are cov-  
ered in the term "children."

## Delegations Absorbed Much of Council's Time Tuesday Evening

M.H.O. Reports On Upstairs  
Portion of Cameron Block;

Delegation after delegation came  
before council at its regular meet-  
ing on Tuesday night till it was  
thought that routine business  
would have to be held over until  
another meeting in order that  
councillors could devote their entire  
attention to the citizens appearing  
before them.

Present were Mayor Aboussofay,  
Councillors Cox, Ducl. Jenkins,  
Ramsey and Wilson.

Council was in receipt of the  
Medical Health Officer's report on  
the upstairs portion of Cameron  
Block on main street. The entire  
upstairs is leased by Mrs. Jasper  
Root who was present with about  
six of her boarders and made a  
strong plea against council taking  
drastic action. Council listened  
sympathetically to Mrs. Root, told  
her that they would give her argu-  
ment every consideration and then  
authorized the building committee  
to thoroughly inspect the premises  
and draft a report to submit to  
council at the next regular meeting.

Messrs. Nick Nicholas, Sam Gil-  
lies and F. DeCocco, all of Fourth  
street, were present to submit a  
petition, signed by all residents  
within a limited area on Fourth  
street, calling upon council to  
grant permission to set up a re-  
creational area between the Jones  
and Nelson properties. Both the  
Nelson and Jones families had  
agreed to the recreational location  
provided council sanctioned the  
setting up of the recreational fac-  
ilities. It is proposed to have a  
skating rink in the winter for the  
kiddies and swings, sand-pits, etc.,  
for them in the spring, and sum-  
mer. All labor pertaining to the  
area would be on a voluntary basis.

Council was only too pleased to  
accept the petition and congratulated  
the aggressive spirit of  
Fourth street residents. The hope  
was expressed that should this par-  
ticular recreational area prove suc-  
cessful that other areas in town  
would adopt the idea. Certain  
stipulations will be made by council  
one being that the area be cleared  
at a minute's notice since the re-  
creational area is on a roadway  
(Continued on Page 5)

## ST. JOHN AMBULANCE ASSN. PRESIDENT MAKES STATE- MENT RE NEW YEAR'S DANCE

It was unfortunate that the St.  
John Ambulance Association's  
dances on New Year's Eve, owing  
to damage to property by some  
hoodlums, was stopped by the sec-  
retary of Coleman Miners' Union.  
To compensate for this loss the  
St. John Ambulance Association is  
sponsoring a free dance on Satur-  
day evening, January 11.

It is the sincere wish of the  
Association that all persons at-  
tending the free dance will conduct  
themselves in an orderly manner.  
Those found damaging property  
will be prosecuted.

Appreciation is expressed to the  
Polish Society for its courtesy in  
cancelling its scheduled dance this  
Saturday evening in order that the  
Association could sponsor its free  
dance. The Polish Society also  
withdrew its contract with Edl's  
orchestra for Saturday in order  
that it might play for the Ambu-  
lance dance.

ERNEST HILL.

## Ash And McNeil To Retire From School Board

Chairman George Evans Unde-  
cided Whether To Run For An-  
other Term.

Norman Ash and John McNeil,  
school trustees, whose terms in office  
expire at the end of the month are  
apparently determined to retire  
from the board.

Questioned by The Journal on  
Sunday morning both men were  
emphatic in their announcement  
that they had had enough. Mr. Mc-  
Neil has served two terms, being  
elected to office in 1942. Mr. Ash  
has served one term.

Chairman George Evans, whose  
term also expires Jan. 31, is unde-  
cided whether or not to run again.  
A number of supporters are pre-  
vailing upon him to stand for re-  
election and it is just possible that  
he may again be a candidate.

Trustees Holly and Vasek have  
still another year in office.

The salary schedule plus the lack  
of accommodation in the lower  
grades of the public school are two  
major problems facing the 1947  
board of trustees.

## Pontiac, Studebaker, Cole Bonspiel Starts This Week-End

Sponsored by the Local Curling  
Club This Year; Entries to be  
Placed by Friday Evening.

Coleman Curling Club is the  
sponsor this year of the Pontiac,  
Studebaker, Cole bonspiel which is  
scheduled to start this week-end.  
Usually this 'spiel attracts a great-  
er number of entries than the so-  
called "big" Crows Nest Pass bon-  
spiel.

Entries have to be in the hands  
of Jim Kerr at The Motordrome  
by Friday evening. The draw will  
be made on Saturday evening and  
posted in all three Pass towns.

Due to the anticipated heavy  
entry the local sheets and those  
at Blairmore will be used until all  
draw narrows down to permit all  
games being played on Coleman  
ice.

The Crows Nest Pass 'spiel is  
scheduled for Bellevue the second  
week in February.

## School Board "Unreservedly With- draws All Wage Schedule Proposals"; Dispute Now Gone Into Arbitration

New Coal Stoker May Be In-  
stalled In Central School;  
William Chappell Appointed  
Board's Representative on Arbi-  
tration Board.

Regular meeting of Coleman  
School Board was held on Sunday  
morning in the Board room. Pre-  
sent chairman G. Evans, Trustees  
Ash, Holly, McNeil and Vasek.  
Considerable time was spent in  
debating the proposed new wage  
schedule as submitted by the board  
to the teaching staff, the unani-  
mous rejection by the staff of the  
proposals, Conciliator K.A. Pugh's  
vagueness of facts in his report,  
the meeting of Alberta teachers'  
association with the minister of  
education at Edmonton and the  
salary schedule as outlined by the  
teachers at that particular meeting.

## ARBITRATOR

William Chappell  
of Blairmore, who has been ap-  
pointed by Coleman School Board  
as representative on the Arbitra-  
tion Board set-up to referee the  
wage dispute as present prevailing  
between the school board and  
teaching staff.

Mr. Chappell is very well known  
in provincial school circles and has  
been possibly the most energetic  
leader in Pass community effort  
over a long period of years. His  
reputation of fair dealing in all  
matters makes him an ideal choice  
as a member of the arbitration  
board.

The teaching staff has appointed  
Mr. McKim Ross, of Edmonton, as  
its representative. Mr. Ross is not  
known locally. He is a school  
teacher who left the profession to  
enter His Majesty's armed forces.  
Upon his discharge he decided to  
enter Alberta university to advance  
his education and at the present  
moment he is a student at the uni-  
versity.

Messrs. Chappell and Ross will  
now get together to determine who  
the third man on the Arbitration  
Board will be. It is expected that  
the Board will sit in Coleman as it  
is customary to sit at the point  
where the dispute arises.

## NEW TRUCKS ON DISPLAY

Ding & Lew's Service Station,  
dealers for Reo trucks, has a new  
1946 2 ton Reo truck now on dis-  
play at their garage in West Cole-  
man. Proprietors Ding and Lew  
cordially invite persons interested  
in purchasing a truck to call and  
inspect the new machine.

Jim Kerr, of The Motordrome  
travelled to Calgary on Monday to  
take delivery of a half ton General  
Motors truck. The new machine is  
on display in The Motordrome and  
Jim extends an invitation to all in-  
terested to inspect the truck.

School solicitor Sam Bannan was  
present.

The teachers have unanimously  
rejected the new wage schedule on  
two points; 1. Too much spread be-  
tween high school teachers and  
public school principal; 2. The  
"retroactive" clause.

Mr. Pugh called upon the Board  
to appoint its representatives to  
the arbitration board the matter  
now going into arbitration. Mr.  
William Chappell, of Blairmore,  
upon the invitation of the board,  
has consented to act in its behalf.

Coming back to the wage pro-  
posals the school board "unreserv-  
edly withdrew all its wage propos-  
als submitted up to the present." This  
means that the arbitration  
board will find itself with the entire  
salary question before it and not  
only one or two clauses.

High school Inspector C. B.  
Johnson submitted his report  
covering a recent inspection. It  
reads:  
S.D. Coleman Number 1216. En-  
rollment: IX 92, X 46, XI 31, XII  
25. No. of rooms 5.

ACCOMMODATION: Ample.  
These students are very fortunate  
in having bright classrooms and a  
satisfactory auditorium. However,  
when the sun is not shining, the  
basement rooms, notwithstanding  
lights being on, are fairly dark. If  
amount of light were measured on  
such days, I believe your board  
would find that the students are  
straining their eyes.

EQUIPMENT: The school is  
quite well equipped. The Principal  
and his staff are to be commended  
for the supervision which they have  
given relative to care of public  
property. The typewriting class  
should have a lower table, as one  
of the tables is far too high for best  
results. Mr. Spillers should have  
more gymnasium apparatus at his  
disposal, for example, two mats  
would be most acceptable. In a  
school of this size, every attempt  
should be made to provide  
teachers for Shop and for Home  
Economics courses, as these would  
be very much more valuable to a  
considerable number of high school  
students than are some of the  
courses they are now taking.

GENERAL ORGANIZATION:  
There is ample evidence of excellent  
organization and very satisfactory  
co-operation among the members of  
the staff. Physical education is  
capably handled by Mr. R. Spillers.  
The patriotic exercises were brief  
but to the point and the students  
participate wholeheartedly. Music  
is very capably handled by Mr.  
Cousins. The students are very for-  
tunate to have a talented young  
musician who has the ability to  
teach music most effectively.

The Coleman school board is to  
be congratulated on having a  
capable staff in its high school. The  
students' performance, their polit-  
eness, etc., are manifestations of a  
very well organized staff under the  
leadership of a principal who knows  
his business thoroughly.

C. B. Johnson.  
The board is working towards  
the installation of a coal stoker  
capable of burning slurry. Quota-  
tions have already been received  
from outside sources and quota-  
tions are now being sought locally.  
The companies will be approach-  
ed to give special rates on slurry in  
return for a two years' contract.

Showing at  
Palace Theatre, Coleman  
SATURDAY and MONDAY  
January 11 and 13  
Cole's Theatre, Bellevue  
TUESDAY and WEDNESDAY  
January 14 and 15  
Orpheum Theatre, Blairmore

## The Question Of Immigration

THERE ARE INDICATIONS that at the coming session of Parliament one of the most important questions to be considered will be that of immigration. There is growing interest throughout the country in this subject, and already some measures have been taken by the government in respect to it. Recently an Order-in-Council was passed, making it possible, under certain conditions, for relatives of Canadians to enter this country. It has also been announced that some special immigration officers had been sent to Europe because of the need for Canada to take a part in the solution of the refugee problem there.

### "Open Door" Is Not Favored

There is no suggestion, even on the part of those most strongly in favor of an expansive immigration program, to institute a "wide open door policy" such as existed here during the early part of this century. A senate committee on immigration which has made a close study of the problem proposes a plan of "selective attraction". Under this plan, immigration officers would be stationed in Europe to interview prospective settlers there, relatives and friends of Canadians would have priority in entering this country, and the immigration act would be revised to allow for the finding and selection of immigrants. The report further proposes a "vigorous administration" to encourage the free movement of desirable types of settlers into Canada.

### Shortage Of Labor In U.K.

One factor that is expected to affect any program of immigration which may be introduced here is the acute manpower shortage in the United Kingdom. It is reported that officials coming from the United Kingdom are unwilling to discuss immigration at this time, but it is considered probable that when Canada's policy in regard to this matter is clarified it will be found that people in the United Kingdom may be discouraged from leaving to live elsewhere because of the urgent need for all available labor to carry out post-war projects there. Whatever may develop in the future, it is apparent that there will be much interest both here and abroad, in any discussions which may take place in parliament in connection with this important problem.

## "Why Didn't I Do This Before!"

If your nose ever fills up with stuffy transients, congestion, next time put a little Vicks Vapo-Rol in each nostril. Quickly congestion is relieved, breathing is easier. Vicks Vapo-Rol works right where trouble is to relieve distress of heads. Try it! Works fine! You'll like it!

**VICKS VAPOROL**

### Britain's Oldest Peer

Was Given Only Few Hours To Live  
Ninety-Eight Years Ago  
The London Daily Mail reports that Britain's oldest peer, Lord Hayer, who was christened in his mother's bedroom because the doctors gave him only a few hours to live, has died at Chislehurst, aged 98. He had been refused a life insurance policy, at the age of 21, because of his delicate health. Eventually he became deputy chairman of the company that refused him. He was the ninth man in London to have a telephone number. Lord Hayer was the oldest knight bachelor (1875) and the oldest baronet (1900) as well as being the oldest peer. He was, so far as is known, also the oldest volunteer in the Kingdom, having been a cadet in one of Lord Trenchard's London regiments at the age of 12.

### A One-Man Show

No Large Committee Was Needed To Welcome Distinguished Guest  
During the 1944 presidential election campaign, Governor Dewey was scheduled to make a radio speech originating in a small mid-western city. The network with which the local station was affiliated sent the following telegram to the station owner:

"Got. Dewey arrives Monday at 9:22 p.m. Please have on hand, at railroad station, your general manager, commercial manager, program director, news director, special events director, chief announcer, and chief engineer."

"The station owner wired back: 'Don't worry. I'll be there.'"

### RAW FURS

Vancouver is the largest fur market in Canada, and here, it is claimed to be the people who give the fur the best return. The market, 2000 feet long, is full of fur. Your heavy pelts such as beaver, lodger, skunk, to name a few. To get acquainted, we will send you absolutely free a couple of our Canada's big game animal close-up photos and receipts of a shipment valued at \$100.00. If you took over 10 years to secure at a cost of over \$100.00.

J. H. MUNRO, 1363 Kingway, Vancouver (established 1912)

## AUSTRALIAN SOLDIER ESCAPES BEHEADING

Tells Of Harrowing Experience Under Japanese Custody

TOKYO.—An Australian soldier told the International War Crimes Court that he had lived through a Japanese officer's attempt to behead him—"I felt a heavy dull blow on the back of my neck"—and eventually had crawled to safety after recovering consciousness to find himself buried in a shallow grave.

He was the first witness called when Australians began the final phase of the international prosecution which began last June 3.

The soldier, Colin Fleming Brien, 23, of Sydney, New South Wales, said his botched "execution" took place after he was captured, wounded, in battle near Singapore early in 1942. A platoon of Japanese soldiers and 15 Japanese officers stood in parade formation in a jungle clearing. Brien testified, while "I was searched; then the officer who brought me to the clearing said in English: 'You are going to meet your God'."

Brien wanted to sit down with his feet and legs in the shallow grave, his wrists were tied behind his back and a towel tied over his eyes. The officer, sword in hand, loosened Brien's shirt collar and bent his head forward.

"After a few seconds I felt a heavy dull blow on the back of my neck," he continued, "I fell over on my right side, then lost consciousness."

"When I regained consciousness I was lying at the bottom of the grave underneath clouds of earth. I had a large wound in the back of my neck, and was covered with blood."

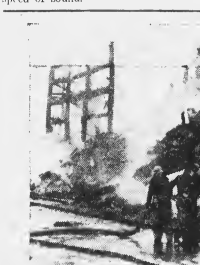

"I lay there for about an hour. I could not use my hands, and the only way I could get out was to lever (move) the pile of clouds with my feet. I managed to dislodge them and crawl out, and staggered into the jungle grass where I lay all day."

That night, he testified, he managed to untie his wrists. After three days, he reached Singapore where he surrendered in civil police who handed him over to their Japanese masters.

He recuperated in Changi prison hospital, and remained in various prisoner of war camps at Singapore until the end of the war, he added.

### WILL TAKE YEARS

John Cunningham, chief test pilot of the De Havilland Aircraft Company of England and a British night flyer ace of the war, said it will be at least 10 years before man solves the problems of flying faster than the speed of sound.

FIRE IN ELEVATOR KILLS ONE—One man died and damage estimated at \$80,000 was done in this spectacular blaze which broke out in a grain elevator at Parkhill, Ont., and destroyed the elevator and a chopping mill. The new pump shown in action, delivered to the village fire department only a few days previously, was credited with halting spread of the fire.

## NEW MEDICAL DISCOVERY SUCCESS

Waste Blood With Penicillin Provides Great Curative Jelly

CLEVELAND.—Penicillin mixed with hemoglobin, the red coloring matter of human blood, is curing wounds and sores where nothing else succeeds, not even pure penicillin, it was reported to the American College of Surgeons.

Dr. Felix Janney, of Northwestern University, Chicago, said the discovery was made in two U.S. Army hospitals in England, which were short of medical supplies and on their own initiative tried for new uses of what they had.

Waste blood, of no use to anyone, was one thing these hospitals had in abundance. They extracted the hemoglobin, in the form of a red, sticky powder. They mixed it with water, making a jelly and into this jelly they mixed penicillin.

The mixture was placed directly into wounds. The cases at first were only those wounds which had failed to heal with all other available treatments. Penicillin, given internally, had failed. This was because in the blood the penicillin does not get higher than a certain concentration, and this concentration was not strong enough to kill some kinds of germs, which are highly resistant to penicillin.

But in the red blood mixture, the military surgeons placed a much stronger concentration of the wonder drug. In most cases, only one application of this penicillin in human jelly had to be used.

Old Janney said no bad effects of any sort had been reported. Hemoglobin, itself a human tissue ingredient, has a naturally stimulating effect on tissue growth.

In the hemoglobin penicillin is released slowly. Pure penicillin did not have the same good effect in wounds, both because it was absorbed too rapidly and because it was irritating to the wound.

Dr. Herbert Conway, of New York, reported that tattooing changes the color of the dark, bluish, smooth birthmarks known as port wine stains to nearly normal skin color. Wine has nothing to do with these disfigurements.

For tattooing a color is selected that will nearly change the color of the skin graft to match that of the area where the graft is placed.

Tin, one of the earliest metals discovered, is mentioned in several books of the Bible.

FIRE IN ELEVATOR KILLS ONE—One man died and damage estimated at \$80,000 was done in this spectacular blaze which broke out in a grain elevator at Parkhill, Ont., and destroyed the elevator and a chopping mill. The new pump shown in action, delivered to the village fire department only a few days previously, was credited with halting spread of the fire.

## BACKACHE The Plague of Outdoor Men

The outdoor man, whether he be farmer, truck driver, or railway operator, is often subject to backache. This may be the result of exposure to cold and dampness or the result of strain from the jolting and lurching of the vehicle he rides.

To many people, women as well as men, it would be great to be free of backache—one of the most common and annoying of ailments. And here is how you may be relieved of backache and its symptoms of pains in the back, aches and tired feelings.

Keep regular and keep well by using Dr. Chase's Kidney Liver Pills. 35c a box.

## Dr. Chase's Kidney Liver Pills

### FUNNY and OTHERWISE

An American soldier in England was giving some illustrations of the size of his country. "You can board a train in the State of Texas at dawn," he said impressively, "and 24 hours later you'll still be in Texas."

"Yes," said one of his English listeners, with feeling. "We've got trains like that here, too."

The young wife greeted her husband affectionately when he returned from the office.

"Poor darling," she said. "You must be tired and hungry. Would you like some nice soup, followed by nice tender chops with golden-brown potatoes and green peas, and then mushrooms on toast?"

"No, darling," her husband answered firmly. "Let's save the money and eat at home."

A Negro who had been exploring chicken coops heard that the sheriff was waiting after him. Hastily he sought the railway station and asked for a ticket to the end of the line on the fastest train.

"Our fastest train left just ten minutes ago," he was told.

"Well," gasped the Negro, "jes' give me a ticket an' point out de track!"

The weary father was marching up and down at 1 a.m. with a waiting infant in his arms when there came a knock at the door. It was the tenant from below, carrying a pair of new shoes.

"I say, old man," he said, "able you're about it, you might break these in for me."

"Is there anything you fancy to eat before the execution?" asked the warden.

"Yes, mushrooms," said the condemned man. "I've always been scared to try them in case I'd be poisoned."

Two sweet young things were discussing affairs of the heart.

"So you've accepted Tom?" said one, jealously. "I suppose he didn't happen to mention that he had previously proposed to me?"

"Well, not exactly," replied the other blantly. "but he did confess that he'd done a lot of silly things before he met me."

The offices of the inspector of taxes and the collector of taxes were in the same building.

A woman who got into the lift said to the liftboy: "Taxes."

"Collector or inspector?" asked the boy.

"Taxes, please," replied the lady. "Now, look 'ere, ma'am," said the liftboy. "Do yer want ter pay or just 'ave an argument?"

A young man, after eight years' absence abroad, alighted at his home station and despite his expectations there was no one there to meet him. He then caught sight of the station-master, a friend since boyhood, and he placed about to extend a hearty greeting when the other spoke first.

"Hello, George," he said. "Goin' away?"

Scott (seeing his first hockey game)—And do you like chasing about the ice get paid?

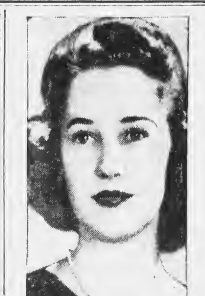

Friend—Oh yes; big salaries.

Scott—And the lad between the posts. Is he paid, too?

Friend—Certainly; highly paid.

Scott—Wouldn't it be cheaper to board up the wee place?

People became so interested in golf that they were neglectful of their archery practice, so Scotland imposed a ban on golf in 1941.

STES MRS. TRUMAN—Mrs. Bess Truman, wife of the U.S. president, has been named defendant in a \$100,000 damage suit by Mrs. Nellie Motley Pearson, shown here, of Annapolis, Md. Principal defendant is Henry J. Nicholson, designated as driver of a car belonging to Mrs. Truman which was involved in an accident in which Mr. Pearson allegedly died from injuries. Mrs. Truman was not in the car.

### Hitler Considered Churchill Strong

WASHINGTON.—Adolf Hitler considered former British Prime Minister Winston Churchill "to a certain extent a strong man," captured German documents revealed.

Notes of conversation between Hitler and his Axis partner Benito Mussolini in 1944 near Salzburg, Austria, were published in the State Department's weekly bulletin.

Hitler, who was telling Mussolini about the Axis troubles due to the surrender of Italian Marshal Pietro Badoglio, said he was convinced that "countries and peoples at all periods could be represented by individual men."

"The Russians had their Stalin," Hitler was quoted as saying. "It was the misfortune of France that no great man had been discovered there. To a certain extent Churchill was also a strong man and one thought of Italy only in connection with the Duce."

### GEMS OF THOUGHT

COURTESY  
Courtney is love in trifles, and where love is not, though its counterfeits may abound, courtesy itself is not.—George Jackson.

The small courtesies sweeten life; the greater, ennoble it.—Bovee.

There is a courtesy of the heart; it is allied to love. From it springs the purest courtesy in the outward behavior.—Goethe.

When the heart speaks, however simple the words, its language is always acceptable to those who have hearts.—Mary Baker Eddy.

The courtesies of a small and trivial character are the ones which strike deepest to the grateful and appreciating heart.—Henry Clay.

All doors open to courtesy.—The No. 1 case method always succeeds. Write or Call—

## FINANCE MINISTER ABBOTT FORECASTS BALANCED BUDGET FOR 1946-47 FISCAL YEAR

OTTAWA.—Finance Minister Abbott, in a year-end review of matters under his jurisdiction, said a balanced budget for the 1946-47 fiscal year "is practically certain and a sizeable surplus not improbable."

Recalling that a deficit of between \$260,000,000 and \$300,000,000 had been forecast for the current fiscal year in the budget speech last June, Mr. Abbott said:

"It now is clear that we shall spend less than even the very much reduced amounts forecast in the budget, and take in more by way of revenue. Indeed, a balanced budget is practically certain and a sizeable surplus not improbable."

Mr. Abbott, who a month ago took over the finance minister's post from Rt. Hon. J. L. Hiley, now justice minister, paid tribute to his predecessor.

"A solid foundation has been laid for future progress," he said. "There is every reason to look forward with confidence to the new year."

"While the transition from war to peace has been prolonged, and not always smooth, it is being accomplished on the whole in an orderly fashion and with remarkable success. Approximately 1,500,000 men and women formerly in the armed services and in war work have been absorbed in civilian activities without serious unemployment, and the demand is not yet satisfied. We have already entered an era of unprecedented activity."

During the new year the government planned to continue its policy of lifting controls as rapidly as conditions permit.

"In the process of decontrol some increases in costs and prices were inevitable and have taken place," said Mr. Abbott. "Others are likely to follow. But, in spite of serious external pressures, we have managed to avoid the excessive fluctuations that would have taken place if there had been an abrupt end to all controls."

"This orderly adjustment will be of major assistance to Canada in maintaining incomes and employment at high levels during 1947 and future years."

He referred to efforts to bring about new financial agreements with the provinces at the Dominion-provincial conference last May. When the conference failed to agree on a proposed division of taxation fields the Dominion had drafted limited proposals and offered them to the provinces on an optional basis.

"Encouraging progress is being made, in spite of the inevitable difficulties and delays resulting from the wide differences in conditions, interests and outlooks of the various provinces," said Mr. Abbott.

### LASTING PEACE

Foreign Secretary Bevin Believes Russia is Ready To Co-operate

LONDON.—Foreign Secretary Bevin expressed the belief that Russia has shown herself ready to co-operate with other countries and that complete peace is within grasp of the world.

The foreign secretary, who returned from United Nations and Big Four foreign ministers meetings in New York, said in a broadcast speech that Russia realized there was "a desire for complete understanding."

"There is throughout the world a readiness to co-operate with her and see her develop her system in her own way with the recognition that others equally have the right to their own way of life," he declared.

Defining the new role of Great Britain, Bevin said "the war has left two great powers predominant—the United States and Soviet Russia. Great Britain lies midway in geography and way of life."

## Announces Lifting Of Controls On Coal, Coke And Solid Fuels

Reconstruction Minister Howe announced that all controls on coal, coke and solid fuels terminated Dec. 31.

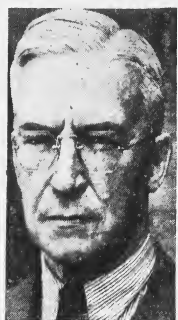

Mr. Howe said that while the control on the fuels will be lifted, a coal administration under the Prices Board will be appointed to regulate the price of coal, coke and solid fuels.

"It is understood that the new administrator of coal, coke and solid fuels will be J. E. Van Baskirk, president of the Commodity Prices Stabilization Corporation," said Mr. Howe.

In making the announcement, Mr. Howe said that for the first time in some four years he was able to give a "confident and reassuring forecast" of Canada's fuel supply situation.

Present stocks of bituminous coal for industrial use are satisfactory and, when augmented by the rail shipments that are usual during the winter months, should be sufficient until the opening of navigation.

Similarly, total shipments of all types of domestic fuel to date are equal to those of last year. Deliver-

MANITOBA CHIEF JUSTICE

J. E. Coyne (above) of Winnipeg has been appointed chief justice of the supreme court of Manitoba, it is announced from Ottawa. The new judge is president of the Canadian International Relations association and did a great deal of supreme court work in Ottawa.

### RECALLS ENVOY

British Ambassador To Spain, Sir Victor Mallet, Back In London

LONDON.—Britain's ambassador to Spain, Sir Victor Mallet, has been recalled to London, it was authoritatively learned.

Sir Victor has been instructed to notify the Spanish government of his recall and to return to London as soon as possible.

The recall conforms with the recent recommendation of the United Nations Security Council that ambassadors and ministers of member states should be withdrawn from Madrid.

The Spanish government has decided to take parallel action by withdrawing Domingo de los Barrenas, Spanish ambassador to London.

### DIDN'T WORK

Man-Made Meteorites Failed To Leave Rocket

LOS ANGELES.—Science's first attempt to launch man-made meteorites into the earth's upper atmosphere with a German V-2 rocket was classified as a failure by Dr. James A. Van Allen, Johns Hopkins university physicist, a key figure in the experiment.

Arriving here after witnessing the firing of the rocket at White Sands proving ground, Van Allen said a time device in the rocket's warhead apparently had failed and that none of the metal fragments actually was shot out from the rocket.

QUICK ACTION OF GUEST

AVERTS HOTEL FIRE

HALIFAX.—An unidentified guest averted a possibly serious fire in the three-storey Grosvenor hotel on Barrington street. The guest noticed smoke coming from one of the hotel's 48 rooms and quickly rang in the alarm.

Firemen said the blaze was confined to a mattress in an unoccupied room and was easily extinguished but that it could have been serious if it had not been noticed early.

### 300,000 HOMES

LONDON.—The number of houses under contract to be built in Britain will soon approach the 500,000 mark, Health Minister Aneurin Bevan said in an article in the Citizen civil affairs journal.

ies of anthracite from the United States to Canada should continue at a satisfactory rate.

The mild weather of the Autumn and early Winter has kept stocks in householders' bins at normal levels and there was some evidence to indicate that these stocks were larger than in previous Winters.

The reassuring picture now was in contrast to that of last June when coal strikes in the United States and a shipping strike in Canada made it appear that Canada would face the Winter with a probable shortage of 3,500,000 tons of coal.

When the shipping strike ended efforts were concentrated on the movement of coal from the United States. In addition the movement of fuel from Western and Eastern Canada to Central Canada was increased. The result was that at the close of navigation the earlier deficit had been fully restored.

Mr. Howe paid tribute to the work of Ernest J. Brunning, coal controller, Ian MacLaren, assistant controller, and their associates in the central and regional fields.

## CANADIAN DOLLAR RATE ESTABLISHED

OTTAWA.—The government has passed an order-in-council establishing the Canadian dollar at its present value of parity with the United States dollar until further notice, it was learned authoritatively.

This action is necessary under legislation passed at the last session of parliament to continue the war-born foreign exchange board. The Exchange Control act becomes effective Jan. 1 and requires that the dollar rate be fixed by order-in-council.

While the order does not in itself mean any change, informed sources said it did serve to emphasize that the government was not planning to revalue the dollar and would be, in effect, a denial of recent reports in some financial quarters in Canada and the United States that revaluation was impending.

## Canada Supplies Most British Wheat

Provided Nearly \$200,000,000 Of Britain's Purchases During 1946

LONDON.—Board of trade figures showed that although Canadian wheat shipments to the United Kingdom have been delayed recently by transport difficulties, the dominion supplied five-sixth of British purchases in the first 11 months of 1946.

Canada provided nearly £50,000,000 (\$200,000,000) of Britain's total wheat purchases of £61,500,000. Canadian shipments in the first 11 months of this year totalled 107,000,000 bushels of wheat compared with 53,000,000 bushels in the first 11 months of 1938 and 117,000,000 in the same period of 1945.

Although shipments were down in later months this year, immense exports to Britain were arranged at the time of greatest need in the spring and early summer when Canada scraped the bottom of the barrel to send all possible wheat supplies across the Atlantic.

The value of United States shipments in the 11-month period was 19,750,000, of Argentina shipments 12,000,000.

In wheat products, meal and flour, Canada supplied £11,800,000 of the total value of £13,250,000 imported by Britain.

Bacon exports from Canada at more than 2,250,000 hundredweight were down 1,000,000 hundredweight from 1945 but Denmark, only other major contributor, provided only 750,000 hundredweight.

QUADRUPLETS BORN TO

BRITISH WAR BRIDE

BALTIMORE.—A 28-year-old British war bride of a twice-wounded ex-army sergeant gave birth to quadruplets—three boys and one girl—in Baltimore's St. Agnes hospital. Doctors say the mother, Mrs. Charles Henn, Jr., and the four babies are "doing fine." She is the former Dorothy Gess of Edmonton, London, and has been in the U.S. only since last March.

The father is a 28-year-old book-binder for a Baltimore stationery firm. The young couple have one other child, a one-year-old son, John.

MANUSCRIPT FOUND

Valued Possession Of Trieste Library Located In New Jersey

NEW YORK.—The New York Herald Tribune says that a 14th century manuscript copy of Petrarch's "Africa," a valued Trieste library possession that disappeared during the war, has been located in a thread-cutting shop in Union City, N.J. The newspaper says that Walter Reche, 26, a former soldier, was found to have the book, having bought it from an Italian who may have stolen it.

HUXLEY WILL DIRECT UNESCO FOR TWO YEARS—Appointed director of the United Nations educational, scientific and cultural organization for a period of two years, Julian Huxley is seen at his desk in the hotel Majestic, Unesco's headquarters in Paris.

### SOLDIERS HELD

Four From Britain Practically Held Under Arrest In Yugoslavia

BELGRADE.—British embassy representatives here so far have not been allowed to see four British soldiers arrested several months ago by the Yugoslavs, an embassy spokesman said.

The four soldiers, he added, "strayed into what the Yugoslavs say is their territory at various times since last August."

"We have made repeated and energetic representations to the Yugoslavs, but so far have failed to get any satisfaction."

"As far as the embassy knows they are being held under arrest but have not been charged."

### TRAIN IN BRITAIN

LONDON.—British soldiers must be trained principally in Britain, War Secretary Belloc said the house of commons after members suggested Canada and Germany as possible alternative sites. Belloc said the cost of sending troops to Canada would be prohibitive, even if Canada were prepared to make arrangements for training British soldiers.

NEW TRAINING CO-ORDINATOR

Appointed co-ordinator of all Canadian army training, Col. W. R. Moncel, 29, will plan the policy for individual training commands as methods are framed to meet the needs of the atomic age. At the age of 27, he was the youngest brigadier in Canada's history and commanded a fighting armored brigade.

## AMERICAN BUMPER ORANGE CROP CAUSING PRICES ON CITRUS FRUITS TO DROP

### WAR TRIALS HIGH

Over Twenty-Four Thousand Persons Have Been Tried For War Crimes

LONDON.—The United Nations war crimes commission announced that 24,365 persons have been tried for war crimes in British, United States, French, Greek, Norwegian, Czechoslovak and Polish courts. The figures for Poland and Czechoslovakia are also included trials of persons charged with collaboration and treachery.

Death sentences were returned against 1,432; prison terms were levied against 16,413; and 6,520 were acquitted.

In the far east, the commission reported, 1,468 persons have been tried before United Kingdom, United States, and Australian courts with 457 death sentences, 735 prison sentences and 276 acquittals.

### DIVORCE RATE ALARMING

LONDON.—Dr. Henry Wilson, bishop of Chelmsford, told Britons that divorce is increasing so rapidly in the United Kingdom that it soon will "be as common in this country as in the U.S.A. Bishop Wilson wrote in his church publication that the rate of divorce is causing great alarm, even in circles which are not concerned with the religious side of the question."

### RHODES SCHOLAR

WINNIPEG.—The award of this year's Rhodes Scholarship to Frank H. Gooten of Winnipeg was announced by Prof. W. L. Morton, secretary of the selection committee for Manitoba.

## HOLLAND'S FIFTH COLUMNISTS STILL IN CONCENTRATION CAMPS WAITING FOR PUBLIC TRIAL

(By William Boss, C.P. Staff Writer)

THE HAGUE.—The remnants from Holland's "fifth column"—30,000 strong—are still sweating it out in camps throughout the country, waiting for public trial and definite sentences if found guilty.

At the end of the war, sites used by the Germans as concentration camps, army barracks and fortresses were taken over by the Dutch underground, who swept into them 90,000 suspected collaborators.

Among them were men who had actually borne arms against the Allies, some who fought on the east front against the Russians, members of the Dutch S.S. and Nazi party persons who had simply received Germans into their homes, girls who had been seen publicly with Germans, and numbers who were "denounced" by their neighbors, sometimes out of mere jealousy.

Housing 90,000 alleged collaborators in the 103 co-opted camps without trial proved difficult. The ministry of justice studied dossiers which had been prepared on each interned individual, and released 60,000 inmates shown to have been innocent of any crimes.

Some whose dossiers were incriminating were released on conditions later.

OTTAWA.—A bumper crop of oranges in the United States is rapidly forcing prices of citrus fruits in Canada below the government ceiling prices, according to both officials of the department of agriculture and wholesale fruit dealers in the east.

In Ottawa, small U.S. oranges which a month ago were retailing for \$7.75 a crate wholesale are now down to \$4 a crate. Small oranges pack about 288 to a crate and the retail markup on a \$4 crate would put the retail price at \$5.33. The government's wholesale ceiling price is \$7.75 a crate, so that the small oranges are now \$3.74 below the ceiling per crate.

Large oranges pack about 150 to the crate and are still selling for \$7.75 a crate wholesale. Reason for the large sizes are more popular in the U.S. whereas Canadians prefer the smaller ones. The U.S. market is absorbing most of the big oranges while the small ones are now in production in Canada.

For the first time since the war Italian lemons are beginning to come on to the Canadian market. Packed 25 to 30 dozen to the crate, they are retailed at \$6 a crate which puts the retail price at \$8.35 a crate or approximately 35 cents a dozen. California lemons disappeared from the market about 10 days ago but the new crop is about to come in. According to wholesalers here, the price which was about \$12 a crate for California lemons will drop to around \$9 a crate.

Wholesalers say that many of them who bought oranges and lemons in advance on former prices have been badly squeezed by the sudden drop. The government subsidy on citrus fruit was removed nearly a year ago.

which they were free to protest in court. They agreed to forego their civic rights for 10 years, to work where directed by the public prosecutor or his representative, and to report regularly to authorities.

Of the 90,000 originally interned, only 4,951 have been tried. Of 59 death sentences pronounced, only two have been carried out, the rest having been commuted to the maximum sentence which can be imposed in Holland—12 years.

Ministry of justice officials say it will take more than a year to try the remaining 25,000 in the camps who have still not had a chance to be heard by tribunals. They say that few of the 90,000 released conditionally have applied for trial, and that a negligible percentage of those released were found to have been wrongly held.

To speed up hearings a priority system has been established. First to be heard will be those who simply belonged to the S.S. or the Nazi party out of political incentive, or "idealists" who bore arms only on the east front.

Leaders of the S.S. and Nazi party, large-scale collaborators, those who bore arms or who denounced fellow-citizens to the Germans will be tried last.

## Ontario's New Lieutenant-Governor And Wife At Home

New lieutenant-governor designate of Ontario, Mr. Ray Lawson of London, Ont., noted industrialist and philanthropist, is pictured at home with Mrs. Lawson, one of his two daughters, and a grandchild. Ontario's new "first lady" is at left. Daughter Jean, wife of Dr. John C. Kennedy, is at right, while little "Wendy" Kennedy is seated on the new lieutenant-governor's knee. Mr. Lawson is reputedly one of Canada's richest men. He will take office on December 26.

## Grands Win Three Shut-Outs In A Row; Score 98 Goals On Opposition While Pow Only Lets 11 Past Him

High River, Macleod And Stavely Fail To Score While Grands Run Up Terrific Scores; White, of Bellevue, Signs With Grands.

Feature of this week's league games has been the three successive shut-outs hung up by Grands against opponents. This gives goalie Dave Pow four shut-outs in the season's play to date.

High River absorbed a 10-0 defeat on their own ice, and Macleod and Stavely both travelled to Coleman for their defeats, scores being 15-0 and 16-0 respectively.

In the league to-date Grands have scored 98 goals against 11 for the opposition.

GRANDS 16 STAVELEY 0  
Wednesday's game could be aptly described as "The Par, ade to Goal." Grands possess, ed too much experience for the prairie boys who were hopelessly outclassed and knew it. Minutes on end the rubber would be in the Stavely zone with Grands playing checkers with it and Stavely unable to get control of the puck till the goalie scraped it out the back of his net.

SUMMARY:  
First Period: 1. Antonenko, 2. Antonenko (White) 3. Kryczka; 4. Fraser (Kovack) 5. Fraser (Kryczka) Penalty: Antonenko.

Second Period: 6. Field; 7. Kovack (Kryczka) 8. White (Kryczka) 9. Kovack; 10. Kovack (Kryczka) 11. Roughhead (Antonenko. Penalties: Nil.

Third Period: 12. Fraser; 13. Antonenko (Field); 14. Antonenko; 15. Kryczka (Fraser) 16. Roughhead. Penalties: Nil.

GRANDS 10 HIGH RIVER 0  
HIGH RIVER—Possibly the largest crowd of the season packed the arena Saturday night to see the Coleman intermediates blank High River Flyers 10-0.

Soft ice slowed both teams down but in spite of the one-sided score it was an exciting game with the Coleman team showing the fine and greater experience which has made them winners in all their games so far. Coleman netted six goals in the opening period but were held to three in the second and one in the third.

Lineups  
Scoring Summary  
First period—1. Coleman, Biegun (Pavlus); 2. Coleman, Roughhead (Field); 3. Coleman, Fraser; 4. Coleman, Kryczka; 5. Coleman, Roughhead; 6. Coleman, Fraser (Kovack). No penalties.

Second period—7. Coleman, Kovack (Fraser); 8. Coleman, Pavlus (Biegun, Field); 9. Coleman, Kryczka (Roughhead). Penalty—Kwasnie.

Third period—10. Pavlus.

GRANDS 15 MACLEOD 0  
Grands undoubtedly saw red on Monday night in their scheduled game against Macleod. They just could not help it as the fifteen goals, plus one that was washed out, kept the red light burning almost steadily behind the luckless Burke in the Macleod net.

Fear voiced by some that Grands would spoil their gates by trouncing the opposition by huge scores is apparently not being borne out as the gate on Monday night was possibly the best of the season.

While lop-sided the game was quite exciting. Local fans kept encouraging the Grands to score more and more goals while excitement reigned supreme when Macleod got within range of Pow who was working for his second shut-out in two successive games, having defeated High River 10-0 Saturday night.

Mozell played hard and was unfortunate in having his first period goal washed out. The rubber was actually in flight into the net when the timekeeper rang the bell and declared no goal.

R. Kennedy and Kryczka collided in the opening minutes of the game the former receiving a dislocated jaw which was attended to by Dr. Lisemer.

Kovack led the snipers with four while Bill Fraser had a goal and

three assists. Antonenko, Joyce and Pavlus had two goals each, Field, Biegun, Kryczka and Cytko each scored a goal and practically all of them received assists.

Summary:  
First period: 1. Coleman, Field (Kwasnie) 7; 2. Coleman, Antonenko (Mozell) 9:45; 3. Biegun (Cytko) 11:15; 4. Coleman, Joyce, 15:30. Penalties: Chugg, Kovack.

Second period: 5. Coleman, Fraser, 35; 6. Coleman, Pavlus, 3:46; 7. Coleman, Pavlus (Field) 5:15; 8. Coleman, Kryczka, (Fraser) 10:40; 9. Coleman, Kovack (Fraser, Kryczka) 12:10.

## Frank Aboussafy

"Style Without Extravagance"

Third period: 10. Coleman, Kovack (Fraser) 4:15; 11. Coleman, Cytko (Mozell) 12; 12. Coleman, Kovack (Fraser) 15; 13. Coleman, Kovack (Kwasnie) 17; 14. Coleman, Joyce (Field) 18; 15. Coleman, Antonenko, 19:30. Penalties, Chugg, Antonenko, Roughhead.

## PEE WEE HOCKEY NOTES (By Onlooker)

In the Pee Wee league the Lions and Kerr for the Elks, Jenkins scored his goal from a mad scramble in front of the net, while Kerr picked up a loose puck and banged it home. Olcott got the only penalty of the game.

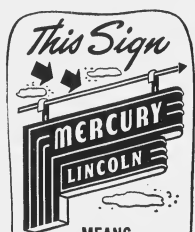

Pattinson's lost to the Legion by a score of 5-1. Kovack spearheaded the Legion attack and got the five goals unassisted. Despite repeated attacks, the Pattinson's could not score any more than one goal, this being made by Tiberghien. The game saw no penalties.

## Preaching Here This Week

Major James Martin, a native of Scotland was drawn to Canada with the stories of wealth to be picked up from the streets of Canadian cities, and while looking in vain for some of that wealth in the city of Moose Jaw he heard The Salvation Army band which he followed into the hall and found a treasure far exceeding the wealth of this world. From that point the Major has served the public through the channel of The Salvation Army, in Saskatchewan, Manitoba and Alberta. As an Ambassador of the Gospel of Christ the Major has conducted services in Lumber camps, trains and in stage coaches, houses, school houses, theatres and in beer houses, in fact anywhere people gather. He comes to Coleman equipped with many years of experience of preaching the Gospel.

The Major will bring the Gospel during special meetings being held in The Salvation Army hall until Sunday night, the 12th. The message being brought in song, object lessons and Gospel songs illustrated by color.

Thursday, 8.00 pm, "Calvary's Hill." This subject will be illustrated.

Friday, 4.15 pm. Young Peoples meeting. 8 p.m., "The Fools of the Bible."

Saturday, 8.00 pm. "I have Anchored my Soul." This subject will be illustrated.

Sunday, 11.00 am. "A Prophet." 7.30 pm. "Love."

## In Memoriam

FRASER—In Loving Memory of James Fraser who passed away January 6, 1941.

Nothing can ever take away The love a heart holds dear. Fond memories linger every day. Remembrance keeps him near. Remembered by his wife and children.

FRASER—In Loving Memory of our dear son, Jim, who passed away Jan. 6, 1941.

Six years have passed since that sad day

The one we loved was called away God took him home, it was His will. But in our hearts he liveth still.

Ever remembered by his Dad and Maw.

IMPOSSIBLE TO HIDE the fact that Maxwell House Coffee is expertly blended. The superb Maxwell House blend results from a traditional knowledge and skill of the art of coffee blending.

RICHARDS—In Loving Memory of our dear husband and father, John C. Richards, who passed away January 8, 1946.

His memory is as dear today As in the hour he passed away. Ever remembered by his wife and family.

RICHARDS—In Loving Memory of Dad, John C. Richards, who passed away January 8, 1946. Memories are treasures no one can steal.

Death leaves a heartache nothing can heal. Ever remembered by Olive, Howard and family.

RICHARDS—In Loving Memory of our dear brother, J. C. Richards, who passed away on January 8, 1946.

We have only your memory, dear brother

To remember our whole life through

\* But the sweetness will linger forever

As we treasure the image of you.

Ever remembered by Lor. and Nana, Lor. jr., and Eileen.

## Suffering China Calls

to Canadian Farmers

WAR has spread wreckage and suffering among the 500,000,000 people of Canada's Pacific neighbor—China.

Blasted from farms and villages, millions of Chinese families are homeless, hungry and in rags, dying daily from starvation and disease. China was first to feel the Fascist onslaught. For eight terrible years—from July, 1937 to August, 1945—China heroically breast the aggressor's hordes. Two years longer than any of her allies!

## Farmers Call to Farmers

To-day, China presents a heart-rending spectacle to Canadians mercifully spared the ravages of enemy guns and bombs. And especially to Canadian farmers!

About 83 per cent. of China's 500,000,000 people are peasant farmers. To the scourge of Japanese planes and artillery have been added, in many districts, flood or drought, and shortage of seed grain. Besides the need for food, clothing, medical supplies, hospital equipment, there is urgent need for reconstruction of farms and homes.

## Canada's Aid Essential

During the war, Canadians, through The Chinese War Relief Fund, sent to China some \$2,654,000 in money and over 1,464,000 pounds of used clothing, valued at some \$2,929,000. But the aftermath of war can be more terrible than war itself. The world-wide relief work of the United Nations Relief

Rehabilitation Agency (UNRRA) ends March 1st in China. The burden will fall on voluntary agencies. So Canadian Aid to China (formerly The Chinese War Relief) is making a national appeal. This is an urgent call to Canadian farmers to support this effort.

## How YOU Can Help

To make it more convenient for YOU to participate, all Elevator companies have been authorized to receive donations of part of grain deliveries as Aid to China.

When you deliver grain to your Elevator, simply tell the Elevator Agent how many bushels you wish to donate to Canadian Aid to China.

The aim is one per cent. of the storage capacity of each Elevator. Will YOU help to make this possible?

## Enlightened Self-Interest

This appeal is to our common humanity as citizens of the One World from which to-day we dare not isolate ourselves. In helping to rehabilitate the Chinese, we are hastening a return to world health and progress.

But we may well remember that China is not only a World Neighbor of Canada, but a good potential customer for our products. In helping her to recover from her war wounds, we are building goodwill and laying the basis of profitable relations in the days to come.

## WHAT TO DO

When you deliver grain to your Elevator, simply tell the Elevator Agent how many bushels you wish to donate to CANADIAN AID TO CHINA. Your Agent will make out a ticket in the name of CANADIAN AID TO CHINA for your donation. Official Receipts will be forwarded to you from your Provincial Headquarters for income tax purposes.

No cheque to write, no cash to pay, no mailing to do. It's as simple as that!

**CANADIAN FARMERS, BE GENEROUS! CHINA, A GOOD NEIGHBOR, NEEDS YOUR HELP!**

This is the only national appeal to be made in Canada during the next twelve months for Chinese relief.

The museum of the Public Record Office, where the Domesday Book is kept, has been reopened after the wartime shutdown.

Food imports to Germany from the United States during the last quarter fell almost 50 per cent, short of requirements for the United States occupation zone.

The bureau of labor statistics said the food bill of the average moderate-income city family with United States rose almost 4½ per cent, from mid-October to November.

Moscow radio said that Yugoslavia had demanded an allied pledge that "Nazi elements" within the present government of Austria prior to conclusion of any peace treaty with that country.

World's oyster-opening title is claimed by Ernie Simpson, who is well known to patrons of London's sea-food restaurants. He has opened 6,000,000 oysters and has average time is six a minute.

## Newest Small Plane

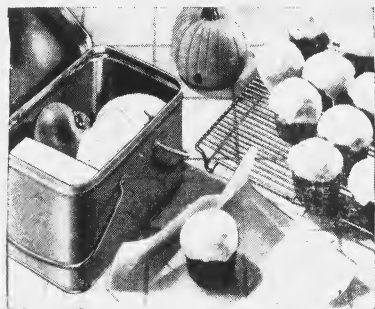

Carries Four Passengers And Can Travel 150 Miles An Hour

A United Kingdom aircraft company has just produced a remarkable new aircraft. Known as the Gemini, it is a twin-motored machine designed for private owners and as an air taxi or ambulance, reports the Empire Digest. It has ample room for four people and their luggage. The speed is one hundred and fifty miles per hour. The manufacturers claim that the Gemini is a good jump ahead of contemporary light aircraft, and London press correspondents who were present at a recent demonstration of the plane seem to agree with them. Ease of handling and remarkable freedom from noise and vibration are two qualities about which they are very enthusiastic. The outstanding feature of this twin-engine machine is, however, its wonderful one-engine performance. In the demonstration the pilot, flying one engine, is able to make steep turns and climbs with the machine under perfect control. It is this feature in particular which is expected to make Gemini one of the most popular machines for the private flier, above all in the more difficult flying areas—i.e., mountainous or jungle regions.

## ON INSTALLMENT PLAN

PRINCE RUPERT, B.C.—Twenty-four juveniles, including two girls, have 11 months to make good payment of \$800 for property damage here last Halloween. The juveniles, chiefly high school students, were convicted in juvenile court and Judge W. D. Vance ordered them to pay the damage, each to contribute a share, and he put them on suspended sentence for 11 months. It was the worst Halloween damage in the history of the city.

Quinine was used by primitive family medicine chests for hundreds of years before being accepted in scientific pharmacopoeia.

## A NEW ROLE FOR PUMPKIN

The pumpkin is at its height, new find, either as a dinner dessert or from many a warm kitchen is as a lunchbox surprise. They're so waiting an armful of pumpkins of various sizes, they'll be welcome any time! pumpkin that's on its way to become. Or toast them with your favorite icing, a pie, a pudding, or—here's something new—a deliciously exciting Honey Meringue!

## Spicy Pumpkin Cakes

1 cup shortening  
1 cup sugar  
2 eggs  
1 cup milk  
1 cup cooked pumpkin  
1 cup all bran  
4 teaspoons baking powder  
1 teaspoon salt  
1 teaspoon cinnamon  
1 teaspoon nutmeg  
1 teaspoon cloves  
Beat shortening until creamy, add sugar gradually and blend well. Add eggs and beat thoroughly. Combine milk, pumpkin and bran. Stir into first mixture alternately with sifted dry ingredients, beating after each addition. Spoon batter into greased

## Honey Meringue Topping

1 cup honey  
1/2 teaspoon salt  
1 egg white, beaten  
Heat honey over hot water. Pour over egg white; add salt. Beat until

## V-2 Lights Desert

Scientist who helped develop the proximity fuse, Dr. L. J. Paddison, holds an army rifle-grenade with which man-made meteorites were shot from the German V-2 rocket sent skyward at White Sands, N.M., proving grounds.

When the German V-2 rocket streaked skywards in a night test at White Sands, N.M., flames from its jet engines lighted the desert for three miles and residents 150 miles away reported seeing a red glow in the sky. None of them saw with the naked eye shooting stars from explosives the rocket carried. These artificial meteorites were formed when a test of the explosives was made.

## Natural Conditions

Air Found Best For Testing Out New Types Of Planes

A supply ministry spokesman said that Britain's newest aircraft, jet-propelled and otherwise, likely will be tested in Canada and other parts of the British Commonwealth and empire before final designs are fixed. Cold weather and other tests will be made in Canada where modern British machines including the jet motor have already been flown in the north under conditions of severe cold. Such tests have been made with the co-operation of Canadian authorities.

"We try to do as much as possible in wind tunnels but it has been found that tests under natural conditions in varying climates are helpful," the spokesman said. Several revolutionary aircraft designs are being developed by Britain and it is anticipated that Canada probably will see them in action as soon as most British residents.

Australia has more species of ants than any other continent.

## Health LEAGUE presents TOPICS OF VITAL INTEREST

## YOUR FEET NEED CARE AND EXERCISE

Take care of your feet because they are your means of getting around. As a first-aid to tired feet, a foot-bath should be a must in before-bed routines. Warm water, plenty of soap lather worked up with a hand brush, followed by a cold plunge or spray will remove the day's accumulation of dirt, perspiration and dead skin that forms on the feet.

Toenails should be brushed briskly and an orangewood stick should be used on them. A wet pumice stone rubbed over the softened corns and callouses will insure comfort. A piece of moleskin or a felt ring properly placed retards the regrowth of these annoying excrescences. Use of razor blades on the feet is always dangerous.

The following exercises, if performed exactly as outlined can be of great benefit in strengthening weakened muscles and in rejuvenating feet suffering from fatigue. Choose one or two which you can do comfortably and do them every morning first thing out of bed. Three minutes at most is all the time you need. At the start do each exercise five times. As your feet become more proficient increase the number of movements until you can comfortably do each exercise twenty-five times.

To Strengthen Foot and Leg Muscles Place two chairs close together. Sit on one with your legs extended over the other so that the heels are free and the feet are about twelve inches apart. The following motions are performed with the feet only, the legs being held perfectly still:

1.—Bring the feet up; 2.—Curl the toes down; 3.—Push the feet down; 4.—Turn feet inward attempting to touch soles together; 5.—Pull feet well back holding for a few seconds, and then start all over again with No. 1.

To Strengthen the Muscles Supporting

THE Arch—Take the same position as in the previous exercise. Turn feet inward, making the soles touch. Hold for a count of five, then relax.

To Broaden the Metatarsal Arch—Stand on a large book with toes extended over the edge. Pull the toes down attempting to touch the side of the book with the underside of the toes. Hold for a count of three. Relax. The picking up of small objects with the toes is another useful exercise.

For Fatigue and Pain In Calf and Knee Due to Muscular Tension—Stand shoeless with feet parallel and body erect, facing a wall. Place hands on wall at shoulder height and allow the erect body to approach the wall slowly, making certain the heels remain on the ground. Hold for a count of five. If properly done, tension will be felt at the calves. Increasing the distance between yourself and the wall increases the severity of this exercise.

To Feel Right — Eat Right!

## LITTLE REGGIE

PEGGY

THE TILLERS

**PANDORA FOR PAMELA**—When the military hospital at Peterboro, Ont., burned, ex-Artillery Sergt. Jim Jourdan lost \$500 worth of belongings, among them a Panda Bear for his two-year-old Pamela. A store-to-store search left Jim still without a Panda, and the prospect for Pamela's merry Christmas looked blank indeed. But Pamela's faith in Santa Claus was saved when a Niagara Falls, Ont., man unexpectedly provided a twin substitute.

## New Passports

Separate Documents Are Now Required By Husband And Wife

Major changes in the issuing of Canadian passports came into effect January 1, as follows:

1. The cost will be raised from \$3 for a new one and \$1 for a five-year renewal to \$5 and \$2.50.

2. They will indicate that the bearer is a Canadian citizen, rather than a British subject.

3. Separate passports will be obligatory for husband and wife, who formerly travelled on a joint document.

The citizenship regulation is in line with the Canadian Citizenship Act, which comes into force January 1. The new arrangement for husband and wife is aimed at facilitating their travel in other countries. Previously, when a Canadian couple landed in a foreign country and wished to travel from there to different countries, this could be done only by one of them. The one without the passport would be left immobile.

Raising of the passport price follows the postwar broadening of the spheres in which Canadians may travel. During the war, about all an ordinary citizen could do with a passport was to get into the United States, and accordingly lower rates were posted.

## New Knights

Viscount Alexander Among Those Honored By King George

LONDON.—The King invested six new knights with the Order of the Garter. They received their decorations kneeling in the presence of the Queen and Queen Mary, at Buckingham Palace.

Those installed, in the first such ceremony of the Order ever to take place outside St. George's Chapel at Windsor, were Lords Addison, Cranborne, Mountbatten, Alanbrooke, Portal and Montgomery.

A seventh new knight, Viscount Alexander, Governor General of Canada, was unable to be present.

Have you ever tried dropping ice cubes into hauging pants instead of water in the usual manner? It will save time and mess.

## QUITE A PROFIT

In a consignment of apples a fruit grower of Westmeath, Eire, recently sent to Dublin was one which had been split and a note giving his address inserted, the London Sunday Express writes. The note read: "I sold this apple for a penny. How much did you pay for it?" The grower received a reply from a Dublin woman saying a trader had the nerve to charge her 9d for it.

## REASON FOR YELP

St. Thomas Times-Journal is somewhat annoyed because the W.P.T.U. won't let the bakers resume their slicing of bread. We heartily join the St. Thomas chum in this yelp, says the Ottawa Citizen, it being our job to put the family breadknife in trim when it's used for sharpening pencils, prying the lids off cans and chopping the ice off the steps of the back stoop.

OUR COMPLETE  
SHORT STORY—

## MABEL WASN'T TALKING

By HOWARD BECKLER

Copyright Wheeler Newspaper Syndicate

WHOEVER made that crack about the onerousness of women, knew what he was talking about. This sage remarked that there is only one thing on earth easier for a man to do than eat a T-bone steak smothered with onions, and that is start a ruckus with the wife.

Now take the case of Mabel and me. That's the wife, Mabel. She isn't talking to me at present. And for what? That's what gets a guy down. For what?

At the time this happened, I was out of work, but Mabel was dragging home her forty-a-week and we were licking along all right. I was getting to be quite a meal hustler. No sir, my cooking wasn't bad. At least, we never had to call for the stomach pump.

Then one morning the ice man gives me a silly grin and simpers, "Have you finished your Spring cleaning as yet, Mr. Nelson," and he laughs out like he felt something was very funny. He was referring to me Joe Nelson, and for some reason his little quip spoiled my whole day, couldn't put my heart into my cooking, so I decided to drive downtown and pick up Mabel at work. I figured we could have a barbecue somewhere along the line.

Mabel was late coming down from the office, and when she arrived there was a tall, handsome fellow waiting with her. They stopped close to the car, but Mabel didn't see me. Mabel said, "It's been a wonderful day in my life, doctor. I'll never forget it." After that she shakes hands with the guy.

He says, "Indeed you shouldn't, Mrs. Nelson." And it seems like he is never going to leave go of her hand. I am getting ready to climb out and slap him down, when he finally drops it.

This doctor leaves. I took the horn at Mabel and she comes over to the car, all smiles. Not me. I am feeling ugly. If I do say so, Mabel is a nifty number, but I am jealous as the next one, and I don't mention this doctor, and neither does she. That's what gets in my craw. Mabel was never one to hold anything back on me.

We had a barbecue. It was lousy, or maybe it was just the way I was feeling.

Mabel said, "What's the matter, hon?" She looked at that golden smile of hers, but it doesn't register.

The next night, I have a swell feed all fixed up. I am feeling like a heel. I think I'll squeeze myself with Mabel for acting like a mope. She says, "Time it is, o'clock. Gosh, I'm sorry, hon." It is Mabel. "I've got to work a little overtime. I'll be home about ten."

That was that. I sat down alone to eat. Mabel got back right at ten. She seemed happy about something, but I was ugly again. We didn't do much talking. Things were getting me down.

I went over to the club for a game of handball one morning, and Bill Sparrow says, "I see your wife at Bolone's having supper Tuesday night with some gent. Looked odd enough to be her grandpa."

I gulped and said, "Yeah, it was." Tuesday was the night Mabel had to work until ten. I figure, maybe I can't blame Mabel much. Architects are a dime a dozen. That's my racket, and my future is about as bright as a London fog. But it hurts just the same. Especially when you feel the way I do about Mabel.

It's funny how a guy will hang on like a puppy dog, when he sees the chips stacking up against him. I called for Mabel every night after that, but I never caught her with the doctor again. She didn't have to come down from the old gent either. And Mabel is feeling like a million all the time. She's kidding me and laughing and joking all the time. If she'd been a little sad about things, I probably would have felt better. It was getting me down lower and lower.

"How about a game of cards with Jane and Eddie Drew?" Mabel asks me one night.

"No thanks," I tell Mabel. This Jane Drew is a big gossip monger, and I don't care for her. "I'm going out tonight."

"Where?" Mabel wants to know. I didn't answer her. I walked out and slammed the door after me like a ten-year-old I went down and bowled a couple games. Some blonde sat side of me in the club bar lounge, and asked me if I was lonesome. First I told her to screw, and when she didn't I bought her a couple of drinks. I was lonesome. Lonesome for Mabel.

Mabel was still up when I got home. She didn't act sore.

"It's getting you down, Joe," she said. "Being out of work is getting you down. But that's all over now."

GIRLS ENTERING  
WOMANHOOD...

This line medicine is very effective to relieve pain, nervous distress and weak, "dragged out" reaction feelings, of "certain days"—when due to functional monthly disturbances.

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

I've got a surprise for you, Joe. In fact, I've got two surprises for you.

"Ugh!" I grunted. I was not listening very hard.

The other night, when I said I had to work, I was out to dinner with old Mr. Prescott. He's an old friend of my dad's, Joe. He's the biggest architect in town. And he called up while you were out tonight, and said I should send you down to see him Monday. He's got a job for you."

I guess my face changed colors, and my tongue wouldn't work. I couldn't say anything. Mabel kept right on talking.

"And it's a good thing you're getting a job, because I have to quit mine pretty soon."

"Quit?" I manage to say.

"Yes. You see I went to the doctor the other day and... well, there's going to be three in the Nelson family, Joe, that's all."

Aw, gee, Mabel, you can imagine how I felt. The whole world was right again. Things were cleared up like magic. I was a rotten pup for thinking what I'd been thinking, but of course I could never say anything to Mabel. It wouldn't be right. She'd think I didn't trust her anymore.

Everything was wonderful. The telephone rang. Mabel answered it. She was gone quite a while.

"That was Jane Drew," Mabel said. She sounded like the end of the world was here. "No wonder you didn't want to play cards with Eddie and Jane tonight. They saw you sitting at Tony's bar with some blonde beauty!" Mabel started to howl after that, and I am sitting there speechless again. Mabel isn't talking to me at present. And for what? That's what gets a guy down. For what?

## Poland Has Plans

Hopes To Increase Food Production And Raise Living Standards

Poland has adopted a three-year plan to raise industrial output in 1946. The nation's chief efforts will be directed toward increasing the production of food, clothing and footwear, to raise the level of nutrition and general standards of living among the majority of the people. The regained territories have provided considerable industrial resources which the government is now quickly developing. Poland's three-year plan shows the resilience of spirit of the Polish people. Over 1,000 textile plants have been restored, as well as 25 of the 55 wood pulp mills destroyed by the Germans. Coal output has already been increased and the production of electrical power will soon reach pre-war standards. Toronto Star.

Among some primitive people, it was the custom to bury sick people to cure them.

CANADA PROVIDES  
\$2,177,245 OF BUDGET

Total of \$67,130,000 Approved By U.N. General Assembly

NEW YORK.—The United Nations General Assembly approved budgets for 1946 and 1947 totalling \$67,130,000, of which Canada will provide \$2,177,245.

The budget is divided as follows:

Administrative budget for 1946, \$19,390,000, Canada's share 3.35 per cent.

Administrative budget for 1947, \$27,740,000, Canada's share 3.20 per cent.

Working capital, \$20,000,000, Canada's share 3.20 per cent.

Canada has already contributed \$1,090,500 of her share in these budgets.

The United States will carry the heaviest load with an assessment of 38.80 per cent of the total.

Assessments on other nations ranged from 11.48 per cent for the United Kingdom, 6.34 for Russia down to .04 per cent for a number of small nations including Iceland, Costa Rica, Haiti, Paraguay and Nicaragua.

A separate budget for the International Refugee Organization set up by the UN, will cost \$151,000,500 for operations and \$1,800,000 for administration.

Canada's share of these two items will be \$5,287,717 and \$152,600, respectively.

## FIRST WOMAN MAYOR—First woman mayor of Prince Rupert, B.C., Noia E. Arnold, shown here, won the election with a four-vote majority over Mayor H. D. Daggett. An aboriginal in the 1946 council, she is a former school teacher and now in the real estate business.

Poland has adopted a three-year plan to raise industrial output in 1946. The nation's chief efforts will be directed toward increasing the production of food, clothing and footwear, to raise the level of nutrition and general standards of living among the majority of the people. The regained territories have provided considerable industrial resources which the government is now quickly developing. Poland's three-year plan shows the resilience of spirit of the Polish people. Over 1,000 textile plants have been restored, as well as 25 of the 55 wood pulp mills destroyed by the Germans. Coal output has already been increased and the production of electrical power will soon reach pre-war standards. Toronto Star.

## Advancing With Times

British Scientists Are Turning Their Attention To Latest Research

The Empire Digest reports that in Britain today scientific research is being harnessed to the needs of industry, and scientists who during the war produced such ideas as jet-propulsion, penicillin, radar, rocketry, the radio-proximity shell and a considerable part of atomic fission data, will now turn their attention to research that will keep Britain abreast of the latest advances in scientific technology. Among the scientific wonders now out of the blue-print state and in active development by United Kingdom technicians and scientists are: jet-driven locomotives; a trans-Atlantic jet-plane that will cruise 500 miles an hour and weigh more than 70,000 pounds; new radar devices that will make roads, railways and ports more accident-free; new adaptations of penicillin and D.T.T. that will make people healthier and crops more fruitful; and a line of the "Queen Mary" type, driven by atomic power.

## The Easy Way

Long Rest Not Necessary If People Would Relax Frequently

The Royal Bank of Canada Bulletin says: It is amazing what can be done by just relaxing. It may not be necessary to take a long sea voyage; all a man may need is to slacken his pace at periods during the day, loosen his necktie and shoes, sit on his feet up on his desk or another chair, and let the world roll by for two or three minutes without worrying about it. It has been found that a good proportion of persons who suffered heart attacks of the most severe nature, and adopted right measures of living, are still alive and enjoying life 10 or more years later.

## KNIFE-FORK COMBINATION FOR ONE-ARMED—Aid for the one-

armed is the purpose of this unique instrument. It was invented by Walter Callow, himself a veteran of World War I, and a patient at Halifax's Camp Hill Military Hospital since 1917. Callow, now blind in addition to being paralyzed, listened to the complaint of a fellow patient who had one arm amputated. To help him, Callow devised the tool. It is a combined knife and fork, scimitar-shaped, with the cutting edge on the outside arc. The user cuts meat by rolling the knife back and forth. The device has been tested and found satisfactory by several one-armed veterans at the hospital.

World's Masterpiece,  
"Last Supper", Doomed

Exposure To Wind And Rain During War Causing Corrosion

MILAN, Italy. A jumble of faded, colored blot is all that remains today of one of the world's great masterpieces—Leonardo da Vinci's "Last Supper."

Exposure to wind and rain after Allied bombs partially destroyed the refectory of Milan's church of Santa Maria della Grazie where Leonardo created his greatest work of art has irreparably added to the damage caused by chemical agents through the centuries.

Leonardo's greatest mistake was to paint his fresco on an extraordinarily damp wall with self-invented, untested pigments. The blotched remnants proved they were a failure.

Corrosion already was spreading swiftly over the painting at the time of the "great plague" in 1628 when the entire interior of Santa Maria della Grazie was covered with a thick layer of white plaster. The "decorators," however, luckily spared the "supper" but the condition of the fresco and the church got steadily worse until 1877. In that year, the Italian Government agreed to restore Santa Maria della Grazie with financial aid of legislator Sen. Ettore Caviglioglio.

What little was done by the restoration was a mere fulfillment of an artistic duty, as experts already were firmly convinced that it was beyond restoration.

When Italy plunged into war in 1940, the fresco was covered with layers of sandbags. Allied bombs destroyed three walls of the refectory, however, and during the next few years, the sun, wind and rain added to the toll of the centuries.

While the refectory is now being painted, nothing can be done with the fresco, which soon will become nothing but a memory.

AGRICULTURE DEPARTMENT  
GIVES WEED KILLER WARNING

OTTAWA.—The agriculture department warned against heavy use of the new weed killer 2,4-D on field crops, disclosing that application in too large amounts can injure grain and sharply reduce yield.

Although a light application of the weed killer often boosts the yield of field crops because it kills many weeds, experiments by the department show the danger of too heavy applications.

## PRE-MIDNIGHT REST

One scientist states that the "natural" sleeping hours of human beings are from 8 p.m. to midnight and adds that those who suffer from sleeplessness would do better to retire early in the evening and get as much sleep as possible before midnight.

## KNIFE-FORK COMBINATION FOR ONE-ARMED—Aid for the one-

SELECTED  
RECIPES

## APPLE SAUCE NUT COOKIES

1½ cups sifted flour  
1½ teaspoon baking powder  
1½ teaspoon soda  
1½ teaspoon salt  
1½ teaspoon cinnamon  
1½ teaspoon cloves  
1½ teaspoon nutmeg  
1 cup shortening  
1 cup sugar  
1 egg, unbeaten  
1 cup thick sweetened apple sauce  
1 cup raisins  
1 cup chopped nut meats  
Sift flour, soda, salt, and spices, and sift again.  
Cream shortening, add sugar, and cream well. Add egg and beat well. Add flour, alternately with apple sauce, mixing thoroughly. Add raisins and nuts and blend.  
Drop from teaspoon on greased baking sheet 2 inches apart. Bake in moderate oven (375 deg. F.) 15 minutes, or until done. Makes 3½ dozen cookies.

## CRISP PEANUT COOKIES

1½ cups sifted flour  
1½ teaspoon baking powder  
1½ teaspoon soda  
1½ teaspoon salt  
1 cup shortening  
1 cup brown sugar, finely packed  
1 egg, unbeaten  
1 cup milk  
1 cup chopped peanuts  
Sift flour, soda, salt, and baking powder, soda, and salt, and sift again.  
Cream shortening, add sugar gradually, and cream together until light and fluffy. Add egg and beat well. Add flour to creamed mixture, alternately with milk, mixing well after each addition. Add peanuts and blend.  
Drop from teaspoon on greased baking sheet, flatten slightly with fork. Bake in moderate oven (375 deg. F.) 12 to 15 minutes, or until done. Makes 25 cookies, 3½ inches in diameter.

## An Exclusive Ranch

R.C.A.F. Veteran Is Raising Valuable Chinchillas On Vancouver Island

Vancouver Affairs reports that "Jed" Jeffries, an R.C.A.F. veteran who operates one of the very few chinchilla ranches in Canada, just outside Nanaimo on Vancouver Island, is doing so with the help of awaiting returns slowmores from D.V.A. His wife, Lee, is his business partner. An everyday sort of chinchilla coat, by the way, retails for about \$75.00, but a really nice lux number carries a price tag of upwards of \$125.00. The little animals look like a cross between a squirrel, a rat and a rabbit; their fur is incredibly soft. Last fall the Jeffries set to work raising chinchillas on the farm they had just purchased at the foot of Mount Benson. They now have 16 of the domesticated Chilean creatures, which are valued at about \$1,500 a pair. Two years ago Jed sent down to Colorado and purchased two pairs of the rodents, then paid for boarding them at a ranch until he was discharged from the Air Force. He and his wife are raising breeding stock.

## OFFICIAL WAR HISTORY

There are 15 officers and 28 other ranks of the Canadian Army presently at work compiling an official history of World War II. Army Headquarters announced recently. It is expected that a one-volume Official history of the Canadian Army will be distributed sometime next summer, and that the official history proper, consisting of four volumes, will be ready for publication in about five years.

CHEMICALLY-WRAPPED  
ORANGES BETTER FOR SHIPPING

POMONA, Cal.—A year of experimentation has indicated that California citrus fruit can be shipped across country by rail without loss from decay.

Dr. Robert A. Baum, chemical engineer, who conducted the experiments, said a citrus wrapping paper had been perfected which by treatment with chemicals controls blue and green molds commonly found in citrus fruit.

He said chemically-wrapped oranges in a recent shipment to Hong Kong arrived in 50 per cent better condition than a similar amount of fruit in standard wrappings.

## MINORITY INCREASED

Chinese authorities are reported putting finishing touches on a program to increase production of tung oil, virtual Chinese monopoly in world markets. Tung tree planters will be given every encouragement under a plan based on findings of the Sino-American agricultural commission.
